

Leadership Certificate Program

Presented by NCC's Center for Business & Industry

Good leaders are essential to the success of both the business and the employees. Great leaders connect people to their work, respond to whatever comes and pro-act at the first inclination that things are changing. Leading others is a daunting task in that we acknowledge our responsibility for the lives and well-being of those we lead. Everywhere we look, we may find a book or article that suggests it holds the key to help us be the ultimate leader.

What we know is that strong leadership requires hard work around understanding yourself, your organization, the world around you, and those you lead and serve. A comprehensive approach in response to the multi-faceted role of a leader is necessary to fully address the challenges associated with leading others. Classes are accomplished in one full day of a live meeting, unless otherwise noted.
