

Cynthia A. Cappel MSN, RN, NE-BC

*Director, Clinical Staff Development –
Division of Education*

“During a spike in hiring several years ago, we contracted Northampton’s CBI to collaborate with us on a complete redesign of our curriculum and deliver training to our technical partners. Together we quickly created a quality program that integrates Lehigh Valley Health Network’s specific protocols, policies and equipment, and accommodates our fluctuating number of participants. They’ve successfully trained nearly 550 of our professionals at a substantial savings to our organization. They’re an excellent partner.”
