

Certified Pharmacy Technician Program

Join one of the fastest growing medical occupations in the country!

According to the U.S. Department of Labor, the need for certified pharmacy assistants is expected to increase by 32% from 2006 through 2016, exceeding the average for all occupations. Northampton Community College is offering a Certified Pharmacy Technician program to train individuals to work under the supervision of a licensed pharmacist in a community or retail setting. Pharmacy technicians typically assist the pharmacist by receiving and preparing prescriptions; establishing and maintaining patient profiles; preparing insurance form claims; and stocking and taking inventory of prescription and over-the-counter medications. Our 30-hour comprehensive Certified Pharmacy Technician program prepares you for a successful career as a pharmacy technician through training in:

- Medical technology
- Prescription interpretation
- Basic calculations
- Dosage forms
- HIPPA & legal issues
- And more!

Upon successful completion, participants will also be prepared to take the National Certification Examination offered by the Institute of Pharmacy Technicians (ICPT) and the National Healthcareer Association (NHA).

Courses available in Northampton & Monroe counties!

Sessions are held in Northampton and Monroe counties. Northampton county sessions are held at the Fowler Family Southside Center in Bethlehem. Monroe classes are held at the Pocono Corporate Center East campus. Fee includes all materials. Examination fee is not included.
