Generic Substitution Program	Restrictive generic substitution—In addition to the coinsurance/ copayment, the member pays the difference between the brand and generic drug price (when there is a generic alternative) unless the physician requests the brand be dispensed.			

Deductibles, coinsurance and copayments under this program are separate from any deductibles, coinsurance and copayments required under any other health benefits coverage you may have. *Certain preventive contraceptives are required to be covered at no cost to you when filled at an in-network pharmacy with a valid prescription in accordance with Preventive Health Guidelines.

In-network providers and pharmacies agree to accept our allowance as payment in full—often less than their normal charge. If you visit an out-of-network provider or pharmacy, you are responsible for paying the deductible, coinsurance and the difference between the out-of-network provider's or out-of-network pharmacy's charges and the allowed amount. Out-of-network providers may balance bill the member. Some out-of-network facility providers are not covered. Deductibles, any differences paid between brand drug and generic drug prices, and any balances paid to out-of-network pharmacies are not applied to the out-of-pocket maximum. In certain situations, a facility fee may be associated with an outpatient visit to a professional provider. Members should consult with the provider of the services to determine whether a facility fee may apply to that provider. An additional cost-sharing amount may apply to the facility fee.
