

# Precision Machining Training Program

## Summer 2024

### Stop looking for that next job... Start building your new career!

The Precision Machining Training Program is a 9-week (280 hours) hands-on program that provides students with the skills needed to fill high-demand machining positions for Lehigh Valley and Pocono businesses. Participants will gain foundational skills in manufacturing including safety; reading blue prints; shop math; measurement and the use of calipers and Vernier scales; and operating lathes, drills and milling machines. An introduction to CNC (computer numerical control) machining is also covered.

This non-credit, grant funded program, is free to qualified candidates and prepares students for a career in Precision Machining while also earning National Institute of Metalworking Skills (NIMS) industry-recognized credentials. Occupational skill building and workplace employability skills, as well as OSHA 10-Hour General Industry Outreach training, are also included in the curriculum.

### Program details:

Mon. - Fri., **June 7 - Aug. 13, 2024**, 8:00am - 2:30pm  
Career Institute of Technology (CIT), 5335 Kesslersville Rd., Easton, PA  
NCC's Fowler Family Southside Center, 511 E. Third St., Bethlehem, PA

### Important information about the program:

- Participants must be at least 18 years of age, have a high school diploma or GED, and be authorized to work in the United States.
- Participants must be a Pennsylvania resident.
- Participants must pass a drug screen test and have dependable transportation.
- In order to enroll in the program, candidates will be required to complete a math assessment at the 8th grade level.

### How to get started:

Participants must attend a mandatory information session, schedule an interview, and take a math assessment.
