

Phlebotomy Technician Fall 2025 Program

Comprehensive course in the fundamentals and practice of phlebotomy (blood specimen collection) includes venipuncture, capillary collection, safety, medical terminology, orientation to the clinical laboratory and health care, and specimen handling and processing, blood pressure, pulse and basic life support for healthcare provider (BLS). Program is 120 hours of lecture and lab. The student must complete 100 successful venipunctures at a clinical site within a minimum of 80 hours. Externships must begin within two months of the completion of the classroom portion of the program. Upon completion of the course, students are eligible to sit for a national certification examination and may seek employment as phlebotomists.

Employment of phlebotomists is projected to grow 23 percent from 2018 to 2028, much faster than the average for all occupations. Hospitals, diagnostic laboratories, blood donor centers, and other locations will need phlebotomists to perform bloodwork.

Program details:

Dates: Tues., Thurs., **Sept. 2, 2025 - Dec. 4, 2025**, 8am-12pm

Fee: \$1799 (due at registration)
