Electives for AA or AS Degrees

All courses except: OXX-level courses; EARL221, 222

Program Narrative:

The Liberal Arts program offers students planning to complete a bachelor's degree a strong foundation in both general education and a selected field of concentration. The curriculum has been designed to meet the requirements for the first two years of BA programs at many of the schools to which Northampton students commonly transfer. Northampton has also negotiated a number of Liberal Arts transfer agreements, including dual admissions agreements, with many regional colleges and universities.

Liberal Arts majors often go on to careers in communications, management, public relations, marketing, and the arts. Their generalist background makes them readily employable at many levels in a wide range of career choices.

Concentration Options

Students who choose to major in Liberal Arts have the distinct advantage of already having made a decision about pursuing a bachelor's degree at a four-year institution. NCC offers two opportunities for these students: take elective courses in various departments, or take advantage of any of the five concentrations available: English, History, Philosophy, Sociology, and Women's & Gender Studies

Program Learning Outcomes:

1. Understand the historical and cultural contexts of contemporary civilization
2. evaluate and discuss diverse points of view
3. communicate ideas effectively
4. speak and understand a modern language other than English
5. retrieve, evaluate, and apply information from a range of sources
6. develop strategies for solving both abstract and practical problems

Transfer Information:

By the end of their first year, students should consider schools to which they would like to transfer. Working with a transfer advisor, students should find out what electives will most readily transfer to the colleges of their choice, and choose their literature electives accordingly.

Career Information:

The observation, critical thinking, and writing required in the Liberal Arts program provide an excellent foundation to a wide range of majors and occupations that value these skills.
