Notes:

- One General Education Elective (AH, SIT, SSHB) must be taken in a Writing Intensive (WI) section.
- If the student is not Calculus I ready in the first semester that this may push back taking Science courses as well as Math courses and require the student to take an extra semester or semesters.
- For the two general electives it is in the best interest of the student to focus on higher level Science, Technology, Engineering, and Math electives. These electives include but are not limited to:
 All BIOS except 281, 282, and 283. CHEM 105, 120, 135, 201, 220, 225, 251, 291, 292, 293, 294.
 CISC 125, 225, 230, 270. All ECON except 291, 292, 293.
 All EDUC except 105, 255. ENGG 100, 110, 191, 192, 193, 194, 201, 203, 204, 251, 252.

AH General Education Elective Honors Courses: CMTH 220, ENGL 203G, ENGL 264G, ENGL 265G, PHIL 201, PHIL 204
 SSHB Gen Ed Electives: HUMA 250G, PSYC 103, PSYC 258, PSYC 265, SOCA 103
 SIT Elective Honors Courses: HIST 113, HIST 163, POLS 101, SOCA 160
 Elective Honors Courses: ALL honors courses

| Arts & Humanities (AH) | Societies & Institutions Over Time (SIT) | Electives for A.A. & A.S. Degrees | Writing Intensive Gen Ed Courses (WI) |

Program Narrative:

Northampton's Math/Physics program prepares you for transfer to a four-year college or university by serving as the first two years of a baccalaureate program in the fields of mathematics, physics, or other physical sciences.

Graduates of our two-year program have successfully transferred to and graduated from institutions such as Lafayette College, Kutztown University, the University of Pittsburgh, and Florida Institute of Technology. They have earned degrees in fields as diverse as chemical or geological engineering, mathematics, and oceanography.

Our program also qualifies you for immediate employment as a laboratory aide or technician, a scientific assistant or in technical sales. Members of Northampton's Career Services and counseling staff, as well as instructors within the program, can assist you in meeting your employment and career goals.

Program Requirements:

While this program has no special admission requirements, certain courses do require a background in Trigonometry and Chemistry. If you are lacking background in these areas, you should acquire it during the summer session before your first semester, or during your first semester.

Program Learning Outcomes: Graduates will be able to:

Demonstrate proficiency in conceptualization and analysis of problems.

Demonstrate both conceptual and quantitative ability for problem solving.

Work independently and also collaboratively.

Use technology to solve problems.

Use mathematics to solve problems and make decisions.

Use the scientific method to investigate a problem and present results and conclusions in a clear and concise form.

Succeed in a math-physics program at a four-year institution.

Transfer Information:

If you plan to transfer to a four-year institution, we encourage you to check with that institution to see what its requirements are. Then carefully select your courses here with the help of an advisor to be sure that they will meet your transfer school's requirements. Historically, our transfer students generally perform as well or better in their transfer school as they did when they were enrolled at Northampton.

Graduates of our two-year program have successfully transferred to and graduated from institutions such as Lafayette College, Kutztown University, the University of Pittsburgh, and Florida Institute of Technology. They have earned degrees in fields as diverse as chemical or geological engineering, mathematics, and oceanography.

Career Information:

The program qualifies you for immediate employment as a laboratory aide or technician, a scientific assistant or in technical sales. Members of Northampton's Career Services and counseling staff, as well as instructors with the program, can assist you in meeting your employment and career goals.
