Electives for A.A. & A.S. Degrees
All courses except: OXX-level courses; EARL221, 222

Note:
 One General Education Elective must be taken in a Writing Intensive (WI) section (course code ends in "G" e.g. PSYC103G), and one should be designated as Diversity and Global Awareness (D).

Program Narrative:

- Our program and course content has been developed to be congruent with concepts established by the Federal Emergency Management Agency (FEMA), Pennsylvania Emergency Management Agency (PEMA) and local emergency planning committees. Courses emphasize an interoperable approach to the total cycle of emergency management. We develop your administrative skills, including accounting and human resources management, so that you can function at an operational level within an emergency response organization or agency. Required General Education courses round out your training so that you are equipped to communicate well with diverse staff and the community.
- The Emergency Services Administration degree contains provisions for a free elective of three credits in addition to the General Education electives. This program can be completed in the day or evening, on a full-time or part-time basis.

Program Learning Outcomes: Graduates of the program will:

- Demonstrate an understanding of administrative principles as they relate to accounting/finance and management.
- Apply emergency service and public safety skills as they relate to agency/organization operations.
- Acquire and demonstrate strong presentation and communication skills.
- Acquire and practice an understanding of ethics and legal responsibility as they pertain to the gravity of emergency response and public safety.
- Work effectively in both individual and team environments.
- Design and implement a cohesive administrative strategy, effectively combining all elements of successful business practice.
- Employ critical thinking and problem solving techniques relevant to emergency situations.

Career Information:

- A background in emergency services will train you to respond to a natural disaster, public health threat, or other emergency situation. Know what to do, how to direct others, and how to establish systems to help an organization prepare and maintain business functions. Earn a two-year degree in the administration or technology disciplines, or a specialized diploma in the technology discipline. Any option provides education and training for those currently in the field, those who are responsible for business continuity, and volunteers who assist during emergency situations.
