Program Narrative:

The Liberal Arts program offers students planning to complete a bachelor's degree a strong foundation in both general education and a selected field of concentration. The curriculum has been designed to meet the requirements for the first two years of BA programs at many of the schools to which Northampton students commonly transfer. Northampton has also negotiated a number of Liberal Arts transfer agreements, including dual admissions agreements, with many regional colleges and universities.

Liberal Arts majors often go on to careers in communications, management, public relations, marketing, and the arts. Their generalist background makes them readily employable at many levels in a wide range of career choices.

Women's and Gender Studies Concentration

Courses in Women's and Gender Studies allow students to understand and develop an awareness of the impact of gender on the human condition as reflected in the sciences and arts as well as in day-to-day life. Students will be able to communicate and use critical thinking skills in evaluating gender theory as they apply it to disciplines including psychology, sociology, literature, political science and others. Given that gender is a universal human condition, a concentration in Women's and Gender Studies is appropriate for students on virtually any educational path, but is especially valuable for those interested in pursuing a career in the social sciences.

Program Learning Outcomes:

1. Understand the historical and cultural contexts of contemporary civilization
2. evaluate and discuss diverse points of view
3. communicate ideas effectively
4. speak and understand a modern language other than English
5. retrieve, evaluate, and apply information from a range of sources
6. develop strategies for solving both abstract and practical problems

Transfer Information:

By the end of their first year, students should consider schools to which they would like to transfer. Working with a transfer advisor, students should find out what electives will most readily transfer to the colleges of their choice, and choose their concentration electives accordingly.

Career Information:

Students may prepare for a BA in Sociology, or begin a pathway to a variety of degrees and careers by using the elective credits in the Liberal Arts program toward a concentration in Women's & Gender Studies. The observation, critical thinking, and writing required in this concentration provide an excellent foundation to a wide range of majors and occupations that value these skills.
