General Education Requirements		
<input type="checkbox"/>	ENGL151L	Diversity
<input type="checkbox"/>		Writing Intensive
<input type="checkbox"/>	PHIL111G, PHIL202G, or PSYC103G	Writing Intensive

Notes: **Two courses must be taken in Writing Intensive (WI) sections. One must be selected from among the General Education Electives (AH, SIT or SSHB); the second must be selected from PHIL111G, PHIL202G, or PSYC103G.**

Electives must be chosen from the list of courses which are applicable to AA and AS degrees, and should be chosen with transferability in mind. For example, PHIL11G will satisfy a writing intensive (WI), diversity (D), and art and humanity (AH).

MATH210 Calculus III is recommended as one of the Electives

***It is the student's responsibility to be knowledgeable of NCC graduation requirements and to verify transfer requirements with the 4-year institution. Courses listed on the program map are based upon the assumption that prerequisites and courses taken in previous semesters will be successfully completed**

Program Narrative:

- If you are planning to pursue a bachelor's degree in computer science, Northampton's associate's degree program can be an affordable way to start. Our program parallels the first two years of standard four-year computer science degree programs. By working closely with your advisor, you can plan your course of study to ensure that you will enter the transfer school of your choice prepared to complete your degree.
- Graduates of our program who complete a bachelor's degree are prepared for a variety of sophisticated positions in the computer field: as an applications programmer, systems programmer, programmer/analyst or software developer.
- The Northampton Computer Science curriculum includes computer programming, introductory computer architecture, mathematics, and general education courses. Depending on your plans and available time, you can complete this program in two years of full-time study with day and evening classes or in three to five years of part-time evening study.

Program Learning Outcomes:

- Use effective approaches for problem solving and algorithm development.
- Use critical thinking to evaluate computing problems and explore options for their solution.
- Be experienced in solving problems related to computer programming and implementing these solutions.
- Have experience in algorithm analysis and data abstraction.
- Have comprehensive understanding of computer hardware needed to critically interpret technical information.
- Explore the nature, characteristics, and design issues of contemporary computing systems.
- Develop abstract thinking skills necessary to compete at a transfer institution.

Career Information:

- Careers in Computer Science are numerous and varied. Job opportunities consist of Analyst, Programmer, Administrator, Developers, and Testors are some of the many careers a student may pursue.
- Students can also use the Career Coach here at Northampton Community College to explore career opportunities. <http://northampton.edu/admissions/career-coach.htm>
